Comments: Where\'s your disproof of mathematically perfected economy, Victor?

I think anyone who can\'t carry half an elk 7 miles ought to think twice about calling a guy who can, a socialist. But then again, you don\'t seem to be such a bright guy. Where do you live, Victor? Where\'s your invalidation? What\'s the proof of your idiotic idioms?

We should meet sometime. Not of course to discuss the arguments you don\'t have.

You\'re an asshole, Victor. Just a human piece of shit no one with half a brain would even suspect would even try to be accountable for any careless thing they have to say.

But I would quite enjoy knocking your teeth (if you have any) out the backside of your head.

: -)

Just kidding. I know you\'re really quite \"a man,\" in fact an intellectual power to be feared.

But we do want to see your invalidation. We\'ve been waiting for months, Victor, so please don\'t forget.
